Regulatory Agenda

AGENCY: Department of Energy.

ACTION: Notice of semiannual regulatory agenda.

SUMMARY The Department of Energy (DOE) has prepared and is making available its portion of the semiannual Unified Agenda of Federal Regulatory and Deregulatory Actions (Agenda), including its Regulatory Plan (Plan), pursuant to Executive Order 12866, "Regulatory Planning and Review," and the Regulatory Flexibility Act.

SUPPLEMENTARY INFORMATION

The Agenda is a government-wide compilation of upcoming and ongoing regulatory activity, including a brief description of each rulemaking and a timetable for action. The Agenda also includes a list of regulatory actions completed since publication of the last Agenda. The Department of Energy's portion of the Agenda includes regulatory actions called for by the Energy Policy Act of 2005, the Energy Independence and Security Act of 2007, and programmatic needs of DOE offices.

The Internet is the basic means for disseminating the Agenda and providing users the ability to obtain information from the Agenda database. DOE's entire Fall 2012 Agenda can be accessed online by going to: www.reginfo.gov. Agenda entries reflect the status of activities as of approximately December 30, 2012.

Publication in the **Federal Register** is mandated by the Regulatory Flexibility Act (5 U.S.C. 602) only for Agenda entries that require either a regulatory flexibility analysis or periodic review under section 610 of that Act. DOE's regulatory flexibility agenda is made up of six rulemakings setting either energy efficiency standards or test procedures for the following products:

Battery chargers and external power supplies (energy efficiency standards)

Commercial Refrigeration Equipment (energy efficiency standards)

Distribution Transformers (energy efficiency standards)

Residential clothes washers (energy efficiency standards)

Residential refrigerators, refrigerator-freezers, and freezers (test procedures)

Walk-in coolers and freezers (energy efficiency standards)

The Plan appears in both the online Agenda and the **Federal Register** and includes the most important of DOE's significant regulatory actions and a Statement of Regulatory and Deregulatory Priorities.

260. ENERGY CONSERVATION STANDARDS FOR COMMERCIAL REFRIGERATION EQUIPMENT

Legal Authority: 42 USC 6313(c)(5)

Abstract: DOE is reviewing and updating energy conservation standards, as required by the Energy Policy and Conservation Act, to reflect technological advances. All amended standards must be technologically feasible and economically justified. As required by EPCA, DOE published previously a final rule establishing energy conservation standards for ice-cream freezers, self-contained commercial refrigerators, freezers, and refrigerator-freezers without doors, for equipment manufactured after January 1, 2012. (74 FR 1092, Jan. 9, 2009) DOE is required to issue a final rule for this second review of energy conservation standards for commercial refrigeration equipment no later than January 1, 2013.

263. • TEST PROCEDURES FOR RESIDENTIAL REFRIGERATORS, REFRIGERATOR–FREEZERS, AND FREEZERS

Legal Authority: 42 USC 6293(b)(2)

Abstract: DOE is conducting a rulemaking to amend the existing test procedures for residential refrigerators, refrigerator-freezers, and freezers in order to provide a test for measuring ice maker energy use and to address other matters that were raised during the previous test procedure rulemaking for these products.
